Solidarity with Sanitarios Maracay workers

Those who sign this petition express our support for the workers of Sanitarios Maracay who, faced with the counter-revolutionary and saboteur behaviour of the employer, the coup plotter Alvaro Pocaterra (who abandoned the factory in an attempt to break the will of the workers' by hunger and desperation), have taken over the installations and have made them run under workers control, including the sale of bathroom components directly to the communities.

Faced with this situation we ask from the Bolivarian Government, from the members of the National Assembly and those public institutions involved to fully support this struggle, to declare the company to be of public interest and to proceed to its expropriation and nationalisation under the control of the workers.
