

The Hands Off Venezuela Campaign (HOV), which is a broad-based campaign, was established to generate awareness about the Venezuelan revolution within the labour and trade union movement, and among young people. Our main task is to promote the social gains that have been made, and to help mobilise the public against imperialist aggression towards Venezuela.

The basic aims of the Campaign are to:

- Give full support to the Venezuelan Revolution, which has repeatedly proved its democratic credentials, in its struggle to liberate the oppressed of Venezuela.
- Defend the Revolution against the attacks of imperialism and its local agents, the Venezuelan oligarchy.
- To counteract the media distortions and lies about Venezuela and mobilise the maximum support for the above aims.

Hands Off Venezuela provides the latest information about news and events relating to Venezuela. HOV organises public events, film shows, speaking tours, and trade union and youth delegations to Venezuela. HOV also promotes international solidarity between the Venezuelan revolution and social movements worldwide.

Join Hands Off Venezuela!

To get your organisation affiliated, here are the recommended affiliation fees.
